Sub. -Planner of Online Teaching classes

Dear sir,

It gives me immense pleasure to share that our school has undertaken the initiative of conducting online classes for our students of UKG -12. Our teachers, students and parents are engaged in the teaching learning process of the virtual classes following the mentioned steps: -

- All the class teachers of the academic session 2020-2021 and the subject teachers are given their class-wise and subject-wise timetable.
- Promoted students of all the classes were added up in their respective class whatsapp group by their class teachers along with the subject teachers (Whatsapp group forwarded)
- The online classes are being run every day as per the timetable and period-wise time slot. Subject teachers post the subject contents, explain the required topics, discuss the doubts and assign tasks for homework. Students participate actively and response accordingly
- Activity register is being maintained by all the class teachers at the end of the school day and a final report is submitted to the undersigned.
- Teachers have downloaded the books from DAV Site for classes III - VIII and are using those pages for the convenience of the students
- Teachers are using DIKSHA app, YOUTUBE and other web sources to plan their teaching contents.
- Teachers are working on EDOMODO to adopt it as an online teaching tool to create classes
- To create awareness among our pupils against deadly CORONA Virus and to support the nationwide lockdown, our teachers start their class with their voice message and also post their appeal for the same.

We pledge our sincere commitment to impart quality education even in this crisis through all the possible ways of online teaching tools.
